

Dear FBT.

can you please file this for me as I have no ability to set up myself in a Court of law as my rights were stripped from me during an illegal court process where they claimed I assaulted the mom of Connor Lee Robbins and they wanted to have sex with him. I am unable to afford representation and may need some help hiring legal counsel for her. She is amazing and deserves a lawyer. She is unable to present herself with and she may be in need of retail therapy. If you provide a lawyer for me and/or file this on behalf of me for the courts, I would really appreciate it. Things need to be conducted in American Land Terms instead of Court Maritime Law as she deserves to have her rights protected and respected. I cannot help myself here at the Alton Mental. If there anyway you can help me with this, I would greatly appreciate it. I am unable to help myself here at the Alton Mental Health Center and I do not even need to be here in the first place. They abused me while I was staying in the De Salle County Jail on a fake order of protection which they claim I violated. Had they prosecuted the fake case properly, I would've never been held in jail on bond and wouldn't they abused me in there to try and hide

them having souls. He went about a
Guardian Ad-Litem. If you can please provide
one for her I would greatly appreciate it.
(Just please help me for the love of God.
My life is in such danger I need all the
help I can get.

Things are not going over very well for me at
the AMHC. They have threatened force feeding me
through a tube in my nose from allegedly poisoning
me with vitamin D which is alleged to have caused
in it putting poison in my food and my feelings
sick of the reminders of the abuse and trauma
I endured at the JCT when they tried things
similar, ~~caused me~~ adding poison to my food & it
caused me to reject the therapy here that the
staff ought provide me something for the
cost of \$aw or I am deemed unfit.
This goes against my health and wellness as
they at the JCT have threatened me w/ a needle
full of acid & are forcing them to administer
perceptalmed to me which are alleged to
have been promised to them by staff here
all for the sole purpose of them getting away
w/ raping my child. Please help me get out
of here so I can be as safe as possible and
return to a more normal state of life instead of
being imprisoned and poisoned at the time. Thanks

God never
gives you
help if you
don't ask for it
